EXPERIENCE

CSKY TELECOM Inc Software Engineer	-	Limbe, Southwest, Cameroon Oct 2026 – Present
--	---	---

- **Spearheaded the architectural** transition of the CREDISURE micro-finance platform from a monorepo to a polyrepo structure with the intension to enhance code modularity and reduce merge conflict instances.
- **Engineered an interactive** Login Awareness drawer using Next.js, React, and Tailwind CSS, delivering instant pop-up notifications for unread tasks, pending approvals, and system alerts immediately upon user login.
- **Architected a time-critical** Pre-Close Alert system with automated T-60, T-30, and T-10 minute notification triggers backed by the project’s existing cron job, reducing missed operational deadlines.

Freelance Software Developer Remote / Independent Contractor	-	Nov 2022 – Present
--	---	---------------------------

- **Diagnosed and resolved critical** UI state-management defects in mobile and web client applications (e.g., xmrbaazaar), eliminating a high-friction input field re-rendering bug that forced focus-loss on keystrokes and restoring smooth form usability.
- **Engineered custom** UI components and REST API integrations using React.js, Node.js, and Tailwind CSS, delivering dynamic user dashboards, data forms, and navigation workflows based on client wireframes.
