SUMMARY

I enjoy turning ideas into functioning applications, collaborating with teams to translate product goals into real interfaces, APIs, and data workflows. I also enjoy solving problems across the full stack, from clean UI layout to backend reliability. When I'm not writing code, I'm refining my projects, learning new technologies, and looking for ways to simplify complex user journeys.

KEY SKILLS

- Express.js
- Node.js
- PostgreSQL
- Prisma ORM
- REST API
- Back-End Auth
- React.js
- JavaScript
- HTML & CSS
- Git
- Unit Testing
- Integrated testing
- Critical thinking
- Problem solving

PROJECTS

Odin-Book : A Social Media Application

Feb 2026 - Present

- Developed the application with a decoupled architecture, building a dynamic single-page React frontend and a RESTful Node.js/Express API.
- Engineered a PostgreSQL database using Prisma ORM with complex relational schemas for users, posts, and comments, utilizing Faker.js to seed realistic mock data for an active user environment.
- Implemented secure authentication and authorization using Passport.js and JWTs, managing session persistence via local storage and creating a custom guest-login middleware to streamline portfolio access.
- Optimized frontend state management and backend API interactions by creating custom React hooks and utilizing the Context API, alongside integrating Cloudinary for media uploads.

Where is Waldo : A Photo Tagging Game

Jan 2026 - Feb 2026

- Built a decoupled architecture with a dynamic frontend to handle user targeting and a backend API to process game logic..
- Secure backend coordinate validation using Prisma ORM and PostgreSQL, querying the database to verify character locations and preventing client-side manipulation of the game.
- Engineered a precision scoring system using Prisma ORM to track start/end times and generate real-time, ranked leaderboards for players.

EDUCATION

Full Stack Web Development

Mar 2024 - Mar 2026

The Odin Project

B.Tech in Mechanical Engineering

Sep 2019 - Dec 2022

University of Buea

CERTIFICATIONS

- Advanced React - Meta, Coursera - Feb 15, 2024
- HTML and CSS in depth - Meta, Coursera - Jan 30, 2024
- Programming with JavaScript - Meta, Coursera - Dec 18, 2023
